

Tool Free Bed

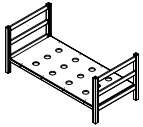

Versatility and Ease. Solid hardwood posts and rails with glue and dowel construction. Tool Free Bed can be lofted or bunked.

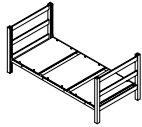

specifications

- 85"L x 38"W x 37"H. (Uses 35" x 80" mattress.)
- Bed posts are solid hardwood. Posts are 2 1/2" x 2 1/2".
- Headboard rails are 3/4" x 3 1/2", solid hardwood.
- Headboard rails attached to posts using glue and dowel construction.
- Patent pending, 1-piece, cold rolled steel U-channel with integrated pins, extends the entire length of each bed post, providing for eight different bed heights requiring no tools for adjustment.
- Lofting/bunking application uses a 4" x 3/8" metal pin, inserted into the top of each bed post.
- Stabilizer rail for lofting, guard rail and decorative rails are 3/4" hardwood veneer plywood.
- 1-piece steel side rails for wood and spring decks.
- Finish is a multi-step process of catalyzed filler, sealer and lacquer coats with buffing, scuffing and sealer sanding between coats.
