○ **Field Re-upholsterable**

Re-upholstery requires no expertise and can be done in the field to any portion of the chair that needs re-upholstery. Arms, seat and back are separate frames. Frames are attached to each other with accessible metal-to-metal fasteners. Frames are upholstered using sewn and formed fabric “socks” which attach to the foamed frames with sewn-in hook and loop connections.

□ **Traditional Upholstery**

These pieces stay true to the fine tradition of upholstery. Re-upholstery typically involves the entire unit and requires expertise. One-piece, glue and dowel, unitized frame construction. Upholstery is sewn, tufted and stapled to the frame for extreme durability.

△ **Component Re-upholsterable**

Re-upholstery requires expertise, but can be done to parts of the unit for a more targeted repair. Arm frames are attached to the seat/back frame with accessible metal-to-metal fasteners for ease of removal. Arms and seat/back unit have their upholstery sewn, tufted and stapled to the frame.

A better way.

Sustainability is the future of our industry and our planet. It's a journey toward a smarter, better way of doing things. We integrate sustainable initiatives throughout our processes, while wisely choosing the materials that go into our products. We use soy-based foam, which utilizes a natural renewable resource, reducing our dependency on fossil fuels. Our case goods are made with SFI certified wood from carefully managed forests in North America. And we offer several eco-friendly upholstery options including Terratex® recycled polyester, green fabric finishes and fabrics woven using renewable energy.

Choices.

RT London offers an expansive selection of surface materials with choices that fit just about any style. We have a wide variety of standard wood finishes and hundreds of fabric options in four different grades, providing almost endless options. What's more, with our COM (customer's own material) program, specially selected materials outside of our standard offering can be used to meet any need. And our interior design staff can assist in making selections, helping to select products, fabrics, finishes or any other needs as you plan your environments.

Hugo

Clean, linear design and comfort invite guests to relax in style. Wood arm options offer variety. The durable construction and field re-upholsterability support this timeless design.

Henley

Residential style and scale guarantee the popularity of Henley. Refine your look with the wood arm-cap option. The comfort of the spring-supported back and seat is sure to be a favorite. \$\$ □

(\$1,375–\$1,625 list | traditional upholstery)

Shelby

Classic styling incorporates flared arms and generous comfort for a great look and feel. \$\$\$\$ □

(\$1,825–\$2,500 list | traditional upholstery)

Garbo

Destined to become the place where everyone gravitates, Garbo offers classic design and all around comfort in versatile shapes and sizes. This chair defies the idea that extreme comfort means sacrificing style and durability.

Baxter

Design your leisure space with this modern collection that features strong, square arms and clean lines. Baxter brings serious urban lounge appeal.
\$\$\$ □
(\$1,675–\$1,800 list | traditional upholstery)

Roxy

Roxy celebrates the timeless details of 40s-era design with a smartly tailored frame and precise welting. Low arms and a broad seat make it a comfortable icon.

\$\$\$\$ □

(\$1,825–\$2,500 list | traditional upholstery)

Sawyer

Sloping arms and a flared back create a transitional design that works well in traditional and modern environments.

\$\$ □

Lucy

Modern styling meets flexibility. Lucy offers ample scale and configuration options. Simple to gang or make mobile with casters. \$□ (\$625–\$1,300 list | traditional upholstery)

Suggested configurations

Lucy Lu

Logan

Nicely scaled, fully upholstered with hardwood foot accents, Logan's understated elegance works well anywhere. Completely field re-upholsterable, featuring a "pass through" that allows crumbs and liquids to fall to the floor through the seat and back joint, Logan ensures superb value over time.

\$\$\$ ○

(\$1,675–\$1,800 list | field re-upholsterable)

Olive

Subtle curves and slight arm flair make Olive even more inviting. A smart "pass through" at the seat and back joint that lets crumbs and liquids drop to the floor makes Olive more functional. And, since it's field re-upholsterable, Olive offers sustainable value in a great design.

\$\$\$ ○

(\$1,675–\$1,800 list | field re-upholsterable)

Broadway

Traditional styling complements a broad range of settings. Single-piece front and back frames provide all the strength you'll ever need.

\$\$\$ □
(\$1,675–\$1,800 list | traditional upholstery)

Broadway SS

This Smaller Size Broadway has a reduced scale for those tighter applications, but the durable construction remains the same.

\$\$ □
(\$1,375–\$1,625 list | traditional upholstery)

Dana

Elegant, simple styling minimizes bulk, while the single-piece front and back panels ensure strength and durability.

\$\$\$ □

(\$1,675–\$1,800 list | traditional upholstery)

Dana SS

This Smaller Size Dana has a reduced scale perfect for tighter applications, and the construction remains strong and sturdy.

\$\$ □

(\$1,375–\$1,625 list | traditional upholstery)

Bluto

Simple and contemporary with a variety of arm styles to choose from, each made from 1½" hardwood veneer plywood. The nicely designed "pass through" (a feature of Logan and Olive as well) at the seat and back joint allows all crumbs and liquids to go right to the floor, away from the upholstery. What's more, it's completely field re-upholsterable for long-term, sustainable value. \$○ (\$625–\$1,300 list | field re-upholsterable)
