Wood Seating

Wood chair frames are made of premium European Beech. We employ a blend of cutting-edge technology and time-honored woodworking methods to maximize both beauty and durability. The Variations™ program allows you to specify upholstery treatments to create a one-of-a-kind look.

Statement of Line

Wood Seating | Orchestra Collection | Chairs

Wood chair frames are made of premium European Beech. We employ a blend of cutting-edge technology and time-honored woodworking methods to maximize both beauty and durability. The Variations™ program allows you to specify upholstery treatments to create a one-of-a-kind look.

Features

Shared Features

Beech

Superb strength, exceptional grain consistency and superior color clarity make beech wood the best choice for commercial seating.

Construction

Mortise-and-tenon construction has been the hallmark of fine woodworking for centuries. We rely on this time-tested method for maximum joint strength.

Detail differences

We glue, screw and “blind-bolt” back legs together using hardened nuts and bolts, then camouflage the connection with a matching grain plug. Corner blocks are glued and lagscrew-bolted at a mitred angle for exceptional strength and durability. Stretchers are toenail screwed to eliminate the need for unsightly metal brackets.

Variations Upholstery Program

The Variations Custom Upholstery program allows you to create endless upholstery treatment possibilities with our wood chairs.
