

Quality construction and attention to detail. A variety of designs in steel and aluminum make Atoll stools easy to coordinate.

Atoll
Chairs

Atoll

features

- Steel or aluminum frame models available.
- Upholstered seat; wood seat option available on steel frame models.
- Steel frames are made from high-quality plating-grade steel, providing a significant strength advantage. All joints are hand-tailored, coped and brazed to maximize strength, create a smooth finish and prevent rust.
- Precision CNC-machinery and carefully engineered weld placement make the aluminum frame incredibly strong, yet surprisingly lightweight.
- Both steel and aluminum frames are available in a variety of standard powder coat finishes.
- Premium nylon glides.
