

Lotus Approved Textiles

Thank you for your interest in specifying Lotus. We believe the specification process should be as easy and streamlined as possible, all while achieving the highest possible level of quality. Our experience has shown us that due to textile composition differences not all fabrics perform well on all products and, as such, our designers have chosen the most ideal fabrics for use on Lotus referred to as Lotus Approved Textiles.

WRINKLE, PUDDLE, OR PUCKER

Pulling design inspiration from a formed lounge chair and plush bean bag, Lotus's softness and looser fabric fit will naturally cause wrinkles over time. We are embracing these wrinkles as a design feature of Lotus. We believe the Lotus Approved Textiles selections will provide the best results both initially and over time to accentuate the product's effortless look and feel.

We know there may be interest in using fabrics outside of the Lotus Approved Textiles and are happy to test fabrics as requested. We want to make sure the RT London products you specify look their absolute best but would like to emphasize that non-Lotus Approved Textiles may exhibit excessive wrinkling or may puddle or pucker in various areas of the product.

Please contact designservices@rtlondon.com with questions.

Blazer

Blazer is a classic pure new wool upholstery fabric with a billiard cloth felted finish. The fabric is made from premium New Zealand lambswool and benefits from complete integrity right from individual sheep farms to the finished fabric.

Made by Camira.

Technical information

Composition

100% Pure New Wool. Non metallic dyestuffs

Environmental

Rapidly renewable and compostable

Width

54 inches minimum

Abrasion Resistance*

ASTM D4157 Wyzenbeek method

Heavy Duty Upholstery independently certified to $\geq 75,000$ double rubs

Covered by a full and comprehensive 10 year guarantee (full details available)

Flammability

California Technical Bulletin 117 - 2013

NFPA 260 + UFAC Class 1

BS 7176 Low Hazard

ASTM E84 Class 1 or A (Adhered)

ASTM E84 Class 1 or A (Un-adhered)

Note: Flammability performance is dependent on components used.

Cleaning code

W/S

Clean with water-based cleaning agent or solvent: Depending on the stain, you can use a dry-cleaning solvent, the foam of a mild detergent, or upholstery shampoo.

*Camira recognizes that the number of Wyzenbeek double rubs does not reflect the actual wear performance of fabrics. We're so confident in the durability of our products that we provide a robust 10 year guarantee (full details available). This product is externally certified, details of which are on our website and available from our customer services team.

Batch to batch variations in shade may occur within commercial tolerances. We reserve the right to alter technical specifications without notice. The Unregistered Design Rights and the Copyright in all designs are the exclusive property of Camira Fabrics Limited.

CARE AND CLEANING INFORMATION

W: Water-Based Cleaner

WS: Water/Solvent Cleaner

BC: Bleach Cleanable – 1 part bleach, 9 parts water = 10% bleach, 90% water solution. Do not clean/disinfect fabric for longer than 10 minutes using the 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will void any and all warranties.

C: Crypton® Cleaning

CFC: Coated Fabrics Cleaning – Refer to Mayer website for complete cleaning info.

For additional care and cleaning information by pattern, please refer to the Mayer Fabrics website.

DYE TRANSFER DISCLAIMER

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. Mayer Fabrics will not assume responsibility for dye transfer caused by external contaminants. Please check compatibility when using this product in combination with painted or varnished surfaces.

ADDITIONAL INFORMATION

CAL TB 133: All patterns may comply with California Technical Bulletin 133 when combined with appropriate components.

^Abrasion: Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs have not been shown to be a reliable indicator of increased fabric lifespan.

Custom Capabilities: All patterns can be custom colored. Minimum yardage applies.

Specifications: Specifications are correct at the time of printing. Additional specifications are available on our website.

Digital Swatch Card Color Matching: Due to color variations on different monitors and color printers, actual swatch colors may vary slightly. Please request a memo sample from Mayer Fabrics to ensure proper color representation.

***Fedora:** A multi-purpose fabric that can be used for upholstery, panels, & wrapped walls.

These fabrics meet or exceed these ACT performance guidelines.
